

# NHANES Dataset Complex Table Report

Giba Barrie

2026-10-05

## Introduction

The National Health and Nutrition Examination Survey (NHANES) is a major program of studies designed to assess the health and nutritional status of adults and children in the United States (Centers for Disease Control and Prevention 2026). It provides an overview of various variables including gender, ethnicity, and blood pressure.

## Demographic & Blood Pressure Metrics by Wave

Table 1: Sample Overview and Systolic Blood Pressure Statistics by Wave

| Wave ID | Total N | Male Demographics |      | Average Systolic BP (mm Hg) |       |        |       |      |
|---------|---------|-------------------|------|-----------------------------|-------|--------|-------|------|
|         |         | Count             | %    | Min                         | Max   | Median | Mean  | SD   |
| 2015    | 10175   | 5003              | 49.2 | 64.7                        | 228.7 | 115.3  | 118.3 | 18.1 |
| 2016    | 9971    | 4892              | 49.1 | 74.0                        | 231.3 | 117.3  | 120.4 | 18.4 |
| 2017    | 9254    | 4557              | 49.2 | 72.7                        | 234.0 | 118.0  | 121.7 | 20.3 |

## Ethnic Distribution by Study Wave

To maintain layout legibility within the PDF borders, the frequency counts and calculated percentages for participant ethnic categories are detailed below.

Table 2: Participant Ethnicity Distribution Counts and Percentages by Wave

| wave_id | asian        | black        | mexican      | other      | other hispanic | white        |
|---------|--------------|--------------|--------------|------------|----------------|--------------|
| 2015    | 1074 (10.6%) | 2267 (22.3%) | 1730 (17%)   | 470 (4.6%) | 960 (9.4%)     | 3674 (36.1%) |
| 2016    | 1042 (10.5%) | 2129 (21.4%) | 1921 (19.3%) | 505 (5.1%) | 1308 (13.1%)   | 3066 (30.7%) |
| 2017    | 1168 (12.6%) | 2115 (22.9%) | 1367 (14.8%) | 634 (6.9%) | 820 (8.9%)     | 3150 (34%)   |
